THE STUDY OF NOISE POLLUTION OF DIFFERENCE LOCATION IN JALGAON CITY

A
PROJECT
SUBMITTED TO THE

DR. ANNASAHEB G. D. BENDALE MAHILA MAHAVIDYALAYA, JALGAON

DEPARTMENT OF GEOGRAPHY

Estd : 1984

(NAAC Accredited 'A' Grade)

FOR THE
M.A/M.Sc – GEOGRAPHY SEM - IVth Year
COURSE WORK – Gg. 405

BY

CHAUDHARI NEHA ANANT
TADAVI BHARATI RAJAN
SHITODE SWATI RAJENDDRA

PROJECT UNDER THE GUIDANCE OF

Examined
22.06.23

Dr. V. J. PATIL
Prof. and Head
P. G. DEPARTMENT OF GEOGRAPHY

22/6/23

YEAR – 2022-23

Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon

Dr. Annasaheb G. D. Bendale Mahiala Mahavidyalaya, Jalgaon

Estd : 1984

(NAAC Accredited 'A' Grade)

CERTIFICATE

This is to Certified that, Miss **CHAUDHARI NEHA ANANT, TADAVI BHARATI RAJAN and SHITODE SWATI RAJENDRA** Bonafide students Dr. Annasaheb G. D. Bendale Mahiala Mahavidyalaya in M.A/M.Sc. - II[nd] Year (Geography) Sem – IV has successfully Completed the Project in Gg. 405 : **Project Work** during the Academic year 2022-23.

Prof. Dr. V. J. Patil
Vice - Principal & Head of Department
Dr. A. G. D. Bendale Mahila Mahavidyalaya, Jalgaon

Under the Guidance

Prof. Dr. V. J. Patil
Head of Department
Dr. A. G. D. Bendale Mahila Mahavidyalaya, Jalgaon

DECLARATION

We hereby declare that the research project entitles "The Study of Noise Pollution of Difference Locations in Jalgaon City" is an original research work done by me under the guidance and supervision of Prof. Dr. V. J. Patil, Vice-Principal and Head, Department of Geography, Dr. Annasaheb G. D. Bendale Mahila Mahavidyalaya, Jalgaon.

I further declare that the research project or part of it has not been submitted to any other university or institution for the award of any degree or diploma.

Dr. A. G. D. B. M. M. Jalgaon
Research Students

Prof. Dr. V. J. Patil
Vice-Principal & Head of Department
Dr. A. G. D. B. M. M. Jalgaon
Under the Guidance

Date : / / 202
Place: Jalgaon

ACKNOWLEDGMENT

We would like to express our gratitude to our Research Supervisor, **Prof. Dr. V. J. Patil. Vice-Principal and Head, Department of Geography, Dr. Annasaheb G. D. Bendale Mahila Mahavidyalaya, Jalgaon** for his precious suggestion, support in this work and valuable guidance to complete this project.

We are also thankful to **Prof. Dr. Gauri Rane, Principal, Dr. Annasaheb G. D. Bendale Mahila Mahavidyalaya, Jalgaon** for her constant support & guidance during this project.

We are also very thankful to Prof. Nanda Bendale Madam, Prof. H. R. Jadhav, Prof. R. P. More, Prof. Yogesh Koli and Dr. Pratiksha D. Nandeshwar for their help and guidance.

And my friend circle is a constant source of encouragement & moral support. We express sincere thanks to my all Friends Circle of the Department Of Geography for their co-operations & help at various stages in this work.

Last but not the list, my sincere thanks go to all other who helped me directly & indirectly during this work.

Sincerely

Miss. Neha Anant Chaudhari

Miss. Tadavi Bharati Rajan

Miss. Swati Rajendra Shitode

Conclusions and recommendations:

Traffic noise was studies selecting three prominent locations in the city of Jalgaon where there is more traffic and near cross roads and signal. The necessary protocols of recording sound are observed. The noise data recorded near Bendale College, Nutan Maratha and Baheti College, Jalgaon.

In this project we have recorded the noise level at different places of college campus at different time for the whole day. From the results and analysis carried out we can observed that the maximum noise level is 99.9 dB on Nutan Maratha campus at 05:00 pm. So, we can conclude that the maximum the noise level at campus is harmful level to human ears.

Noise pollution also increases gradually because road structure remains same but traffic increases rapidly. Noise pollution has harmful effects on human health. Noise pollution affects on hearing problems, sleep disturbances, poor cognitive function, cardiovascular issues, trouble in communication and mental health problems. Beyond these effects, high noise level can create stress, increase in workplace accident and anti-social behavior.

In rapidly developing Jalgaon city, the transportation sector and students themselves lead to overcrowded roads and noise pollution in educational institutes in the town. The following range of measures may be taken to reduce vehicular noise pollution in educational institutes –

a) The educational institutes have criteria of a good planning for an institutes and it should be located far from main road and other noise sources.

b) Educational institutes should have buildings that have sound insulation system and high fence using concrete walls which protect noise from outside

c) Educational institutes should be aware of plantation of trees and vegetation buffer zone because trees and vegetation can absorb 4dB-6 dB noise intensity depending on their characteristics.

d) Students, Teachers and Public awareness would also helpful in reduction in noise level in educational institutes.

e) A strict law concerning noise pollution in educational institutes should be implemented.

f) Restricting vehicular movement within or hereby the educational institutes.

g) Applying speed limits for vehicles near the educational institutes.
